ShedSafe™ is the Australian Steel Institute (ASI) new industry benchmark accreditation scheme for steel shed design. Dinky Di Sheds is proud to advise you that we are one of only a handful of companies across Australia that have received this accreditation! Our Shed designs underwent rigorous auditing and certification process by the Australian Steel Institute's panel of independent engineers & specialists. Be wary of any brand that is not ShedSafe™ Accredited. If they aren't ShedSafe Accredited, ask WHY NOT? All prices are for the building kit only and are GST Inclusive. All prices are Important Level 1 (isolated farm buildings) unless otherwise stated as IL2. Errors and Omissions accepted. Prices are an average, local site specific conditions may alter engineering requirements. Cyclone prices are a "C2" equivalent.

## Want to compare APPLES with APPLES?

- Our Open-Bay sheds are designed to face all cardinal wind directions!
- Dinky Di Designs are ShedSafe Accredited for your peace of mind
- All Sheds are made to order - 1mm increments available
- Full documentation for Council Approval if required

## 3 SIDED OPEN FRONT FARM SHEDS

All farm sheds are made from high tensile Blue-Scope Steel and our designs have been independently accredited by the Australian Steel Institute for your assurance. All our staff have completed ShedSafe TM training meaning that you can be assured of purchasing the correct rated design for your application.
